GOP JUDGE GRIFFIN NEEDS TO STOP

THE current blatant attempt to steal the 2024 NC Supreme Court seat does not bode well for GOP Judge Jefferson Griffin. Judge Griffin's attempt to discard over 65,000 votes in his race needs to stop. Efforts to disallow votes that have been cast in the November 2024 election is mind bending. Two recounts have confirmed that incumbent Democratic Judge Allison Riggs maintained a 734 vote margin. Both recounts verified that Judge Riggs led the race without a change in the margin. There should be no cancellation of the votes in this past election cycle. Judge Griffin's attempt to sway the NC Supreme Court with the hope that they will toss out votes is at best a veil attempt to disenfranchise the voters who came out and executed our civic duty. Dismissal of his protests needs to be done so that the threat to taint the integrity of the voting process falls short of accomplishing this nefarious power grab. The votes cast need to be recognized and not discarded. Judge Griffin needs to concede this NC Supreme Court race so that the business of the courts can proceed. Enough is enough !!
